JUSTICE ANOOP KUMAR DHAND

Order

28/07/2025

1. Since, this batch of writ petitions involves common questions of law and facts, therefore, with the consent of counsel for the parties, arguments have been heard together in all these writ petitions and the same are being decided by this common order.

2. For the sake of convenience, the facts pleaded in S.B. Civil Writ Petition No. 9721/2025 are taken into consideration by the Court for disposal of this batch of writ petitions.

3. The instant writ petition has been filed by the petitioners with the following prayer:-

"It is, therefore, humble prayed that your lordships may graciously be pleased to accept and allow this writ petition and may be further be pleased to call for the entire record of the case and by way of appropriate writ, order or direction in the nature thereof, thereby, issue the necessary direction(s) to the respondents:-

(i) respondents be directed to revoke the suspension of registration certificate of the vehicles of the petitioners;

(ii) cost of writ petition may also be awarded in favour of petitioner;

(iii) and may pass any other order(s) which this Hon'ble Court deems just and proper in the facts and circumstances of the case."

4. By way of filing this writ petition, a challenge has been led by the petitioner to the impugned order dated 13.06.2025, issued by the office of the District Transport Officer, Kothputli (for short, 'the DTO') whereby the registration of the vehicles in question has been suspended on the ground that the said vehicles were found to be continuously overloaded, beyond the statutory limits, prescribed under the Motor Vehicles Act, 1988 (for short, 'the Act of 1988'). The alleged act of the petitioner has been found to be in contravention of the provisions contained under Sections 52 and

113 of the Act of 1988 and also in contravention of the Rule 115 of the Motor Vehicles Rules, 1989 (for short, 'the Rules of 1989').

5. Counsel for the petitioners submits that prior to passing the impugned order suspending the registration certificates of the petitioners' vehicles, neither any notice nor any opportunity of hearing was afforded to the petitioners and straightaway the registration of the subject vehicles has been suspended arbitrarily, without following the principles of natural justice. Counsel submits that as per the provisions contained under Sections 53 and 114 of the Act of 1988, in the cases involving allegation of vehicle overloading, then it is the bounden duty of the Transport Department to first measure the actual weight of the vehicle and only when it is established that vehicle is overloaded, the punitive action can be taken. Counsel submits that in all these matters, no such exercise was undertaken by the respondents before suspending the registrations of the petitioners' vehicles in question. In support of their contentions, counsels have placed reliance upon the judgment passed by the Orissa High Court in the case of **IRC Natural Resources Private Ltd. Vs. District Magistrate and Collector**, reported in **AIR Online 2019 Ori 278**. Hence, counsel jointly submit that under these circumstances, interference of this Court is warranted.

6. Per contra, counsel for the respondents opposed the submissions made by counsel for the petitioners and submitted that prior to suspension of the registration of the petitioners' vehicles, a registered notice dated 01.05.2025 was duly sent and served upon the petitioners. Counsel submits that the notices were sent through registered post and as per the postal tracking

records, the same were duly served, which indicates that prior to taking any adverse action against the petitioners, principles of natural justice have been followed by the respondents. Counsel submits that as per the provisions of law, a vehicle owner/driver is not permitted to alter the structural capacity of a vehicle but in all these matters, the petitioners have modified the design of their vehicles and thereafter, they were plying these vehicles while overloading them, in utter violation of the provisions contained under Sections 52, 113 of the Act of 1988 and Rule 115 of the Rules of 1989. Counsel submits that after following the due process of law, the impugned action has been taken against the petitioners, therefore, no interference is called for by this Court.

7. Heard and considered the submissions made at Bar and perused the material available on record.

8. Perusal of the impugned order passed by the DTO indicates that the vehicles in question were found to be overloaded for commercial benefits and while treating such overloading to be in contravention of the provisions of the Act of 1988 and Rules of 1989, the impugned orders have been passed by the DTO whereby registration of the subject vehicles has been suspended.

9. As per Section 53 of the Act of 1988, the Registration of a vehicle can be suspended if a contravention of the provisions of the Act of 1988 is duly established and proved. However, in the instant case, the impugned orders have been passed merely on the basis of an assumption that the subject vehicles were found to be overloaded, relying solely on the report received from the Mining Department and without actually measuring the weight of the subject vehicles. The controversy involved in these writ

petitions has been dealt with and decided by the Orissa High Court in the case of **IRC Natural Resources (Supra)** particularly in para 7 and 8 thereof, which read as under:-

"7. The un-disputed facts of the case is that the petitioner in its earlier form was issued a show cause notice under Section 53 of "the Act" under Annexure-2 in respect of 14 vehicles for carrying overload. Despite several opportunities, the petitioner could not file its show cause. Accordingly, the impugned order under Annexure-3 putting the registration certificates of 14 vehicles under suspension on the ground of overloading was passed.

8. A perusal of show cause notice under Annexure-2 and order of suspension under Annexure-3 show that the R.T.O., Sambalpur (opp. Party No.2) came to a conclusion of overloading on the basis of report received from the Deputy Director Mines, Sambalpur. There is nothing to show that in coming to such a conclusion regarding overloading, any report of authorized officer of Motor Vehicle Department who conducted weighing has been relied upon. Section 114 of "the Act" empowers only the authorized officer of the Motor Vehicle Department to get a goods vehicle or trailer weighed if he has reason to believe that the same is being used in contravention of Section 113 of "the Act". Thus, there has been violation of mandatory requirement of Section 114 of "the Act". In such ground, the order under Annexure-3 is liable to be set aside. Though no more is required to be said in the matter, however, for the sake of completeness, this Court is inclined to scan the appellate order. The appellate authority even otherwise has gone wrong in rejecting the appeal merely on the ground that the petitioner had not obeyed the conditions imposed by him though vide order dated 23.10.2007 passed by this Court in W.P. (C) No.13317 of 2007, it was directed that the petitioner may not be compelled to abide by the undertakings given by it pursuant to order dated 17.10.2007. In such background, the petitioner was not supposed to abide by the undertakings vis-à-vis the conditions imposed in the order dated 17.10.2007 passed by the Collector-cum-Chairman, Regional Transport Authority, Sambalpur (opp. party No.2) in M.V. Appeal No.03 of 2007. This shows that there has been total non-application of mind on the part of opp. party No.2 in rejecting the appeal. Similarly, nothing has been

brought to the notice of this Court that while disposing of an appeal, the appellate authority can impose fine under law.”

10. In the instant case also, the respondent-State has failed to produce any material on record before arriving at the conclusion regarding overloading of the subject vehicles. No actual weighing of the vehicles has been conducted and straightaway, it was recorded that the subject vehicles were overloaded.

11. In the considered opinion of this Court, unless and until the allegation of overloading is established by physically weighing the vehicles, the registration of subject vehicles cannot be suspended. Therefore, the impugned orders are not sustainable in the eyes of law. In case, it is found that there has been an alteration in the make/design of the vehicles, it is the bounden duty of the transport authorities, prior to passing any suspension order, to direct the owner/driver of the vehicles to produce their vehicles for inspection.

12. The case of the respondents is that notices were sent to the petitioners through registered post prior to passing the aforesaid impugned order, however, the petitioners dispute the factum of service of notice upon them. Under these circumstances, this Court deems it just and proper to dispose of all these writ petitions by issuing directions to the petitioners to produce their vehicles before the Transport Department, who will examine and inspect the vehicles' make and design and in case any mechanical alteration is found, a detailed inventory shall be prepared and appropriate orders shall be passed strictly in accordance with law and simultaneously, in case no alteration in the make and design of the vehicles is found, the vehicles shall be released forthwith.

The petitioners are directed to produce their vehicles within a period of one month before the respective DTOs who passed the order of suspension of registration of the subject vehicles.

13. Before parting with this order, it is made clear that the order of suspension of registration of the vehicles shall be passed by the Transport Department, only after physical verification of the vehicles, including weighing and measurements of such vehicles that too solely in the cases where overloading is found and established upon such verification. The registration of vehicles should not be suspended based merely on the allegations of overloading on the basis of data or information received from the Department of Mines. The respondents are further directed to grant interim permission to the petitioners for the limited purpose of presenting their vehicles before the respective DTOs on a particular day. This interim period shall be valid only for carrying the vehicles to the respective office of DTO for the aforesaid verification/inspection and shall not authorize the vehicles to ply on the road for any other purpose.

14. With the aforesaid observations and directions this batch of writ petitions stands disposed of. Stay applications and all pending applications, if any, also stand dismissed.

(ANOOP KUMAR DHAND),J
